 Ayliina 05/31/2024 11:29 AM

 Ayliina 05/31/2024 11:30 AM
yea. it should put bots when the player count is < 200

👍 1 🗨️ 1

or maybe 300 if the player cap is higher

👍 1

like it did on the old servers

Like late night... but were there so many bots before the update?

 Ayliina 05/31/2024 11:31 AM
id say there were less than there are now lol
now we get less players and more bots

 @SHARKNADO Like late night... but were there so many bots before the update?

Bots come out on the left side of the map. so at 3 am when not many pepes on you could eat them when no one to play with

 @Ayliina id say there were less than there are now lol
SHARKNADO ★ 05/31/2024 11:32 AM
Ahh not good..

i saw people saying they want them "back"
 but bots on full servers was never even a thing
 why do we need them now
 and looks like its around 1/3 of all snakes
 so 300 players and 150 bots

i think what people really meant was more bots on dead servers

no one even likes those bots

the bots kinda just spawn where there is some space, like normal players

@Hypah Do you intend to do anything to prevent bots from calling 164? This hurts a lot on the main server, maybe it's ok on other servers, but on 164:444 it's not so good...

With bots I don't mean those from the vanilla game, but bots like spooky bots and others that call via node.js and disrupt the fun

Hypah Today at 3:28 PM

which bots do you see used there usually, SnakeyRain? or are they different bots?

VP Today at 3:29 PM

different bots, I don't think it's SnakeyRain because it is blocked from working on 164

It seems to me to be spooky bots with edited name

Hypah Today at 3:29 PM

VP Today at 3:30 PM

I agree

Hypah Yesterday at 9:07 PM

they need to stop steering in such an insane and unrealistic way

IOMAN Yesterday at 9:07 PM

I've witnessed it happen on empty servers

Maybe they should try to attack you when boosting

You know, move to a position in front of you

@Hypah or at least stop acting so crazy

SHARKNADO ★ Yesterday at 9:09 PM
